

The rings on the map show where the answers can be found. There is one question for each ring.

For the answers to this trail, head to the Grounds and Wildlife page on our website.

The Hopetoun Children's Nature Watch Trail

This project is supported by Nature Scot

You will find the answers to these questions on the Nature Watch signs around the Grounds. The map on the back page will lead you to them. You can answer the questions in any order you like, and you don't have to get them all.

What insect pollinates the yellow iris?

What do the young leaves of the holm oak look like?

Who brought the sweet chestnut to Britain?

What are the two names for the wood anemone?

1. _____

2. _____
